

## Summary of Institution's Innovation Council (IIC) Activities

The Institution's Innovation Council (IIC) at Dr. Shyama Prasad Mukherjee Government Degree College, Bhadohi, established on 13 October 2020, aims to cultivate a vibrant innovation ecosystem among students and faculty. Its mission is to promote a culture of innovation and entrepreneurship, nurture new ideas, and align institutional activities with national innovation frameworks like IIC-MIC, ARIIA, NIRF, and the Atal Innovation Mission. The vision is to build an inclusive innovation environment contributing to regional and national socio-economic development.

The IIC's objectives include fostering local innovation through awareness and engagement, supporting start-ups via bootcamps and mentoring, enhancing cognitive and creative abilities, and preparing the institution for innovation rankings. It also emphasizes scouting and incubating socially relevant ideas, building IPR awareness, and conducting outreach for knowledge sharing.

Since inception 2020-2025, several thematic activities were conducted including-

- Startup & Entrepreneurship: Workshops and talks equipped students with foundational business planning skills, leading to start-up proposal submissions.
- Innovation & R&D: Lab visits and field projects encouraged prototype development and experiential learning.
- Intellectual Property: Sessions enhanced understanding of IP laws, resulting in initial IPR filings.
- Celebratory Events: Observances like Innovation Day and Science Day boosted innovation awareness.
- Orientation & Sensitization: Induction programs effectively integrated and motivated new IIC members.
- Field/Industry Visits: Collaborations with IICT and ITI Bhadohi strengthened practical exposure.
- Mentorship & Training: Faculty trained as Innovation Ambassadors and guided students in innovation challenges.
- Outreach & Dissemination: Programmes covering schools and social media engagement increased visibility and stakeholder outreach.

These initiatives aligned with NEP 2020, Skill India, and Atmanirbhar Bharat, providing a dynamic platform for students to engage in innovation-led problem-solving.
